"Believing in the power and potential of youth"

DEAR NYSYA.

I learned how to live a good life and learned a lot of good things. Thanks for helping me get a job. And for being there for me.

Bladerunners, What can I say about this program other than the fact that my life, is not the same as it was five weeks before I wrote this. My life has been destroyed, then melded back together into what I am now, a proper and functioning adult. Before Bladerunners, I used to sit at home and do nothing all day every day, I was 24/7 lazy and useless. My Dad had no idea what to do with me, nor did my Mom or Sister. I did nothing with my life and now that I'm doing something, I couldn't thank anyone more than I do the people that run this program, organize it, and the one's that fund it, thank you for making my life something I and the ones around me can be proud of be a part of. For once in my life, I'm happy to be alive.

Sincerely,

C.S.C.

Bladerunners changed my life

Feb. 6/15

If you're stuck in a rut, Bladerunners will dig you out. Before Bladerunners I never left my house, I didn't go to school but now I'm going to have a job that I enjoy and I get to walk out of here with many certificates and some really great friendships with great people.

I highly suggest this course to anyone who wants change in their life.

Bladerunners

I really enjoyed this program and think it would be great for determined young people. I learned a lot of things and loved getting the certificates.

The Bladerunners program changed my life. I was very anti social before the program I never left the house but now every one in class are my friends. Other than that I wanted to get in the Bladerunners for tickets because I had no experience no one would hire me. Thanks to the Bladerunner program I have a job.
